

Hi I am Damian also known as Damo and I am the accounts manager at One-care.

I have been working in disability services for almost 15yrs.

I started while at Uni studying business I was working as a support worker and since finishing Uni i have worked in the management side.

I have a strong passion for helping others achieve their best and love working at One-care with the pre-teen and teenage stream.

When not at One-care I am involved with local football and an under 16s coach and love doing all sorts of outdoors activities - camping on the river with family and friends is the best.
