

Hi! I'm RJ. I came to Australia when I was 7yrs old and grew up in south Australia but now live in Bendigo.

I love working as a support worker as I feel I can make a profound impact on others and in turn making me a better human. I have worked with mostly younger males and ASD & ADHD. This has been building healthy relationships whilst having participants reach their goals .

My hobbies include anything sport related, cooking, outdoor activities, gym and my favourite winter activity - video games.
