

Hey,

My name is Noah. I'm 22 years old and I am originally from Gippsland, I now live in Bendigo.

I have always enjoyed my role as a support worker. The reason I started support work was the wanted to make a difference in people's lives and help them reach their full potential. It is very rewarding to seeing people stretch their abilities & learn new skills that they have always wanted to. The majority of my experience is working with younger male participants living with ADHD & ASD.

In my spare time I love to catch up with mates. If I am not doing that I am a keen gamer.

.
