

Hi! My name is Tansy.

I've always wanted to be a support worker with kids. My sister worked as a Disability Support Worker. After hearing the positive impact she has had on other peoples lives I decided to give support work a go.

I am loving having a rewarding career where I am able to help others meet their goals and provide a supportive environment.

In my spare time I love being outdoors whether that's taking my dogs for a walk at the park, playing soccer, or hiking/camping. I also love op shopping and finding great buys to alter and make mine, I am studying Fashion and design and love being creative.

I have supported young people with ADS and ADHD.
