

Hey! My name is Alex.

I am 23 years old, currently living in Bendigo.

I have recently started working as a support worker with One-care and have really enjoyed working with the teen's. My passion for support work began while coaching a junior basketball team and was able to mentor and coach a few of the boys that have ASD. Being able to support and help others, is so rewarding, which is why I love what I do.

For the most part i have worked with younger male participants and those living with ASD and ADHD.

I am a true sports fan, I love anything sport. In particular, AFL, NBA, NFL & American football. In my spare time you will find me at a game, involved in a team, at home watching sports, listening to music or playing video games.
