

Hi i am Sarah the HR & Recruitment officer at One-care.

After leaving school I studied Nursing and worked in the mental health sector for 5 yrs before traveling.

While overseas I met my to be husband, he was from Sydney where I lived for a number of years before we bought a small farm on the outskirts of Kyneton.

While travelling I worked in hospitality and loved customer service and meeting new people.

Away from work I love spending time with my Nona's baking and making preserves. I also love working on my veggie garden, and hanging out with family and friends.

I love my role at One-care as i am able to utilise my love of customer service and my skills learnt as a mental health nurse.
