

Hey! My name is Tiarni, I am office admin and scheduling at One-care.

I am currently studying at Melbourne Uni so work part time in the team.

I really love working for an organisation that support people with disabilities.

I am very passionate about meeting the needs, goals and interests of people with disabilities as I support my younger brother that lives with Downs Syndrome, ASD and ADHD and know with the support he can achieve his dreams.

In my spare time I love hanging out with family and friends, traveling and baking.
