

Hey, My name is Lachy.

I am 19 years old and I've been living in Bendigo for the last 3 years, but was grew up in Shepparton

I've always had an interest in working with people living with disability, I have a younger brother with ASD. I always knew that I wanted to work in this industry - its rewarding working with the participants, helping them reach their goals and watching them become the they can be.

My experience do far is ADS and ADD

In my spare time you'll find me listening to music or catching up with my mates.
